

## LEARNING CONTRACT

**class:**

**student's name:**

**teacher's name:**

- This learning contract will help me to achieve my aims coherently and consequently. I will fill out the spaces together with my learning group. Once a quarter we will talk about my resp. our success and reformulate this contract, if necessary.
- I will build sentences on my learning aims and working steps with "I will do ..." I will be as precise as possible while putting my aims into language and I will plan my work in small steps. I will think on the topics I want to cover, the grammar I want to repeat, and the methods I want to practise. I will name also the media I want to use. And I won't forget to set a date.
- If I am not able to attend class, I will ask my co-students and my teacher on the topic covered. Furthermore, I will copy what was noted on the blackboard, and take out copies of handouts and homework out of the class file. I solely am responsible for clearing my backlog.
